NorthClad® CL
Column Cover Series

NorthClad® CL Series Column Cover Systems

- Fabricated to precise dimensions and tolerances.

- CNC fabrication produces smooth, continuous curves with no segmented appearance.

- Material options include: aluminum, stainless steel, aluminum composite, and other custom metals.

- Wide range of standard prefinished colors available as well as an endless array of custom color options.

- Available in virtually any custom shape.

- Diameter from 0'-8" to 8'-0" or more; Vertical height up to 16'-0" per segment.

- Multiple vertical joint configurations available.

- Contains up to 35% recycled content.

- Complete systems including butt plates for joints between vertical segments.

- Cones and complex shapes are a specialty.

- Installation is quick and easy.

- PVDF (Kynar®/Hylar®) paint for long term color retention.
- 20 year paint finish warranty available.

Offering a huge range of shape, material, color, and finish options to choose from, all of our engineered systems are fabricated in the United States using state of the art fabrication technology.
