A vibrant mixture of panel colors, designs and sizes adorn the South Restaurant + Coffeehouse in Anchorage. Tough and durable, the Stonewood Panels will easily withstand the harsh Alaskan winters.

## EXTERIOR PANELS

### — BEAUTY MEETS BRAWN —

Stonewood Exterior Architectural Panels are as durable as they are beautiful. Designed to withstand all weather conditions, the fully customized exterior panels are available in a variety of vibrant and neutral design options, as well as thicknesses and sizes to create an unforgettable impression.

### — PANELS FOR EVERY PURPOSE —

Economical, fast delivery, self-edging or traditional, pre-fabricated or cut onsite; Stonewood Panels fit your budget and construction schedule.

### — CLADDING BUILT TO LAST —

Tested to the highest industry standards, Stonewood Panels perform, passing the stringent NFPA 285 Standard Fire Test for exterior wall assemblies.

The mark of responsible forestry

FSC® Certified

Fiberesin Stonewood Architectural Panels are available with Forest Stewardship Council® certification. FSC certification provides third-party assurance that all wood fibers are from responsible sources. Green building standards, including the US Green Building Council's LEED program, provide incentives for using FSC certified materials. Increasingly, customers are requesting FSC certified products for their green building initiatives.

Envision the design on your building, order samples at [Stonewoodpanels.com](http://Stonewoodpanels.com) or contact a local representative.

Colors shown are printed reproductions. Not all designs are shown at 100% scale.
