Zinc Series Cladding Systems

### Zinc Composite Panel System

- Allows for larger panel sizes.
- Flattest option available for zinc.
- Tested pressure equalized rainscreen system.
- Combines the appearance of natural zinc with the flatness of composite.
- Span large distances without warping.

### Interlocking Natural Zinc Shingle Panels

- Complete siding system featuring interlocking zinc shingle panels.
- Customizable shingle width and height.
- CNC machinery ensures total accuracy.
- Manufactured with state of the art equipment owned and operated by NorthClad.
- Easy to install.

### Formed Natural Zinc Panel System

- Single-skin pressure-equalized rainscreen with interlocking panel design for ease of assembly with no butyl tape required on the panel.
- Proven Wall System, Tested to AAMA 508-7, fabricated by NorthClad.
- Custom sizes allow for endless options.
- Available in stacking or dual-interlocking panel configurations.

### 100% Recyclable

Zinc, the 23th most abundant element on Earth, has been used for architectural roofing and drainage applications for hundreds of years. With its natural weathering, environmentally friendly properties, and long life time, zinc is quickly becoming the material of choice for modern designers. Our Zn system adds to the natural versatility of zinc by providing architects and designers an array of options utilizing this amazing material.

### Custom Panel System Design Options

The malleable properties of zinc allow sheet material to be manipulated in ways that cannot be matched by steel or aluminum.

We invite you to take some creative license and envision the perfect facade. We'd love the opportunity to help you make your vision a reality.

# Versatile

Our Zn Series features an array of options to accommodate even the most complex design.
