

The ACM Series

Aluminum Composite Panel System

When your design vision requires sleek, smooth expanses of metal with minimal reveals, you need NorthClad® ACM.

Panel system consists of ACM and NorthClad® extrusions

NorthClad® ACM Series panels feature a drained, ventilated rainscreen design

Tested in compliance with ASTM E330, ASTM E283, ASTM E331, AAMA 501.1, and AAMA 508

Aluminum composite material (ACM) consists of 2 layers of aluminum sandwiching a resin core

Fire rated cores are also available

Panels feature coil-coated Kynar® paint for a 20 - 30 - year finish

4mm core available

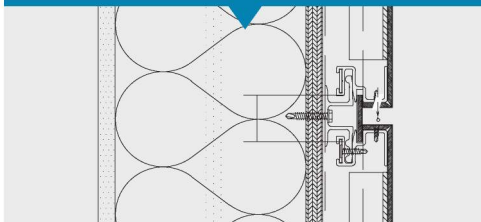

The NorthClad® extrusion attachment system is engineered to provide superior wind uplift resistance and accommodate thermal expansion

NorthClad utilizes ACM from Alucobond, Alpolic, Arconic, and Alfrex

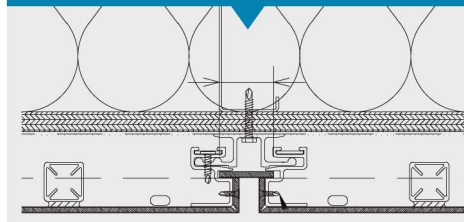

Contact us for detailing assistance and a custom fit and look on your building with panel sizes up to 16' x 5'
